THE MINISTER OF STATE OF THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION AND MINISTER OF STATE OF THE MINISTRY OF SCIENCE AND TECHNOLOGY (SHRI YOGINDER K. ALAGH): (a) The total installed generating capacity of nuclear power plants in the country at the end of 1996-97 is 1840 MWe. Of this Unit-1 of Rajasthan Atomic Power Station of 100 MWe capacity is under rehabilitation and Unit-2 of Rajasthan Atomic Power Station of 200 MWe capacity is under capital maintenance shutdown for coolant channel replacement and upgradation of systems. These Units are expected to be back on line during 1997-98. Thus the effective capacity of nuclear power stations in the country presently is 1540 MWe.

(b) During the current financial year 1996-97, upto 31.1.97 Nuclear Power Corporation of India Limited (NPCIL) has achieved on overall capacity factor of 64% and for the year as a whole it is expected to reach 66%, even though the Tarapur Unit-1 and Madras Unit-1 had to undergo mandatory in-service inspection and shut down for long periods during 1996-97. Kakrapar and Narora Atomic Power Stations have achieved a capacity factor of 84% and 68% respectively during 1996-97 upto 31.1.97. During the second half of 1996-97 upto 31.1.97, NPCIL has achieved an overall capacity factor of 78.23%

(c) and (d) Concerted efforts have been made to improve the plant load factor and availability factor of the operating nuclear power plants and as a result, the performance has improved over the past two years. The measures taken to improve performance of nuclear power plants include strengthening of condition monitoring and preventive and predictive maintenance, improving outage management, intensive training for maintenance and operating staff particularly with the use of simulators, modifications carried out on the turbo generators supplied by BHEL, effective coordination with Regional Electricity Boards to improve frequency control of the grid, decentralisation of decision
